

Product-Owner 03 User Story Template

Written by Brian McCarthy | Landscape PDF | Product-Owner deliverable

GitHub Issue Template: `.github/ISSUE_TEMPLATE/user-story.md`

```
---
name: User Story
about: Create a user story for the agile-final-project backlog
title: ""
labels: ""
assignees: "briansmc"
---
```

```
**As a** [role]
**I need** [function]
**So that** [benefit]
```

```
### Details and Assumptions
* [document what is known]
```

```
### Acceptance Criteria
```gherkin
Given [context]
When [action]
Then [outcome]
```
```

| Requirement / Grading Item | What Must Be Visible | Ready Evidence |
|----------------------------|---|--|
| REQ-1 Create Product | As a catalog manager, I need the ability to create a product in the catalog, so that new products can be sold online. | Given valid product details, When I submit a create product request, Then the product is saved and receives a unique product ID. |
| REQ-2 Retrieve Product | As a shopper, I need the ability to retrieve a product from the catalog, so that I can view accurate product details. | Given a product exists, When I request the product by ID, Then the API returns the product details. |
| REQ-3 Update Product | As a catalog manager, I need the ability to update a product in the catalog, so that product information stays current. | Given a product exists, When I submit valid updated details, Then the catalog stores and returns the updated product. |
| REQ-4 Delete Product | As an administrator, I need the ability to delete a product from the catalog, so that unavailable products are removed from sale. | Given a product exists, When I submit a delete request, Then the product is removed from the catalog. |
| REQ-5 Like Product | As a shopper, I need the ability to like a product in the catalog, so that I can express positive interest in it. | Given a product exists, When I like the product, Then the product like count increases by one. |
