

Task 9 - Sprint Burndown Chart

Burndown chart shows remaining story points across the simulated sprint.

Sprint Burndown Chart

Sprint day	Remaining points	Progress note
Day 0	10	Sprint starts with the selected work estimated.
Day 2	8	First work moves through implementation.
Day 4	5	Create product is completed and retrieve product advances.
Day 6	5	Update product remains in Review/QA; no point burn for that interval.
Day 8	2	Additional completed stories reduce remaining work.
Day 10	2	Sprint ends with one story still in progress, matching the simulated board state.

The PDFs are landscape-oriented, keep Product-Owner in every filename, include Written by Brian McCarthy, use light blue table headers with black header text, keep tables below graphics, wrap table cell text, and avoid clipped or overlapping elements.
