

Stakeholder Analysis and Engagement Plan

Project: HealthFirst Care Operational Efficiency Initiative

Prepared By: Brian McCarthy

Role: Business Analyst

1. Introduction

This Stakeholder Analysis and Engagement Plan identifies key stakeholder groups involved in the HealthFirst Care operational improvement initiative. The document categorizes stakeholders based on influence and interest, defines engagement strategies, and establishes communication plans to support project success and stakeholder alignment.

2. Stakeholder Identification

- **Patients:** Primary recipients of healthcare services who require reduced wait times and improved communication.
- **Doctors and Nurses:** Clinical staff responsible for patient treatment, scheduling coordination, and resource usage.
- **Administrative Staff:** Responsible for scheduling, patient records, and operational coordination.
- **IT Teams:** Support system implementation, data integration, and technical maintenance.
- **Hospital Leadership:** Provide strategic oversight, funding, governance, and performance monitoring.
- **Support Staff:** Provide operational support services and administrative assistance.

3. Stakeholder Influence and Interest Matrix

Stakeholders were categorized based on their influence and interest in the project initiative. This classification supports prioritization of communication and engagement strategies.

4. Stakeholder Classification Table

Stakeholder Group	Role	Influence	Interest	Category
Doctors/Nurses	Clinical Operations	High	High	Key Players
Administrative Staff	Scheduling & Coordination	High	High	Key Players
IT Teams	Technical Support & Integration	High	Low	Keep Satisfied
Patients	Healthcare Recipients	Low	High	Keep Informed
Support Staff	Operational Assistance	Low	Low	Monitor

5. Stakeholder Engagement Plan

Stakeholder Group	Communication Method	Purpose	Frequency	Engagement Strategy
Doctors/Nurses	Meetings, Dashboards	Workflow updates and feedback	Weekly	Active collaboration and training

		collection		
Administrative Staff	Meetings, Email Reports	Scheduling coordination and operational updates	Weekly	Detailed reporting and issue resolution
IT Teams	Technical Reviews, Email	System implementation and support coordination	Bi-Weekly	Technical planning and monitoring
Patients	Surveys, Newsletters, SMS Notifications	Patient communication and satisfaction tracking	Monthly	Feedback gathering and transparency
Hospital Leadership	Executive Dashboards, Reports	Strategic oversight and KPI review	Monthly	Governance and executive alignment
Support Staff	Meeting Notes, Reports	General operational awareness	As Needed	Passive updates and monitoring

6. Alignment with BRD and RTM

- Stakeholder engagement strategies align with operational improvement objectives defined in the BRD.
- Requirements related to communication, scheduling, and resource allocation are supported through stakeholder engagement activities.
- Stakeholder feedback mechanisms support traceability and validation activities documented in the RTM.
- Engagement plans prioritize high-influence stakeholders to ensure project adoption and governance support.

7. Supporting Operational Findings

Operational analysis identified patient wait time concerns across departments. These findings support stakeholder engagement requirements related to scheduling improvements and communication enhancements.

8. Appendix

Appendix A: Stakeholder Profiles

- **Patients:** Primary recipients of healthcare services who require reduced wait times and improved communication.
- **Doctors and Nurses:** Clinical staff responsible for patient treatment, scheduling coordination, and resource usage.
- **Administrative Staff:** Responsible for scheduling, patient records, and operational coordination.
- **IT Teams:** Support system implementation, data integration, and technical maintenance.
- **Hospital Leadership:** Provide strategic oversight, funding, governance, and performance monitoring.
- **Support Staff:** Provide operational support services and administrative assistance.

Appendix B: Stakeholder Matrix

9. Conclusion

The Stakeholder Analysis and Engagement Plan establishes a structured approach for stakeholder communication, engagement, and alignment throughout the HealthFirst Care initiative. By prioritizing stakeholder needs and tailoring communication strategies, the project improves collaboration, supports adoption, and enhances project success.
