

Product Manager Demand Generation Plan - Mobile WB-3000

Written by Brian McCarthy

Scenario summary

Item	Summary
Product overview	Product: Mobile Laptop Interface Whiteboard (Mobile WB-3000). Company: Let's Work Together (LWT) LLC. The product is a lightweight laptop-connected whiteboard and laptop stand for note capture, brainstorming, screen sharing, annotation, and real-time collaboration.
Demand objective	Create measurable market demand and qualified pipeline for the July launch and first-year sales target.

Demand generation plan template completion

Planning component	Demand generation plan entry
Marketing objectives	- Create qualified awareness for Mobile WB-3000 among education, corporate training, business collaboration, government, and mobile professional segments. - Generate enough Marketing Qualified Leads and Sales Qualified Leads to support at least 3,000 Year 1 unit sales. - Keep customer acquisition cost below \$300 per unit and support a customer satisfaction rating exceeding 95%.
Current market trends	- Hybrid meetings, face-to-face collaboration, virtual classrooms, mobile work, and portable teaching tools are increasing demand for collaboration hardware. - The interactive whiteboard market is expected to grow meaningfully through 2030, supporting timely entry. - Customers want lightweight, low-cost collaboration tools that work with existing laptops and video equipment.
Primary marketing theme	- Theme: Take your conference room and whiteboard wherever you go. - Attention hook: a sub-three-pound device that writes, shares, saves, annotates, and folds into a laptop stand. - Campaign will emphasize portability, price leadership, education readiness, and real-time remote collaboration.
Target audience	- Educational institutions: teachers, instructors, trainers, administrators, and hybrid classroom coordinators. - Business users: managers, consultants, project teams, sales teams, and corporate trainers. - Government and military offices needing portable whiteboarding and meeting support. - Mobile professionals who present or brainstorm at client locations, classrooms, and remote worksites.
Specific programs or tactics	- Landing page with demo video, use cases, lead form, pricing offers, and distributor links. - Social media campaign, email nurture, education brochure mailings, influencer units, sales demos, webinar demos, trade show booths, analyst briefings, press release, and whitepaper promotion. - Amazon, Walmart, LWT website, and selected online distributor listings.
Campaign schedule	- June: launch landing page, start lead capture, publish teaser video, begin beta testimonial capture, and prepare distributor listings. - July: launch press release, education conferences, educator discount campaign, and sales follow-up. - August: communications technology events, webinar demos, and case-study development. - September: government/military symposium and targeted government campaign.
Industry associations and expert engagement	- Engage education technology associations, collaboration technology communities, government procurement forums, instructional design groups, and mobile-work influencers. - Brief industry analysts with whitepaper and live demonstration; collect product feedback and review quotes.
Key tracking metrics	- Marketing Qualified Leads, Sales Qualified Leads, Cost per Acquisition, conversion rate, event leads, demo requests, website traffic, video completion rate, distributor sales, unit sales, satisfaction, returns, and defect rate.

Planning component	Demand generation plan entry
Demand generation lead	- Marketing Director is accountable for plan execution. - Product Manager coordinates messaging, beta proof points, pricing readiness, launch schedule, and cross-functional follow-through.
